

Huguenot Trail District Spring Great Scavenger Hunt

Scavenger Hunt rules:

- You may internet search for help while hunting, *however*, you **must** take a picture of yourself in front of each location, building or historical marker.
- Please be respectful of the property you are visiting and follow the rules of [Leave No Trace](#).
- Parents of Cubs, give your Cubs a map and have them use those map skills to follow your route. It would cut down on your driving and help your Cub's attention span if you try to solve the clues before heading out. Have your Cubs help you search the internet and talk them through the clue process.
- When you have completed the hunt, send your pictures and locations along with your name and mailing address in a **message** to the Huguenot Trail [Facebook](#) page. Your completion certificate and patch will be snail-mailed to you. (Due to limited amount of supply, vintage patches are reserved for scouts only)

Clues:

1. Often referred to as Old English Church and located on Falling Creek Hill, this is the location of every Round Table.
2. I used *gravity* for R & R, from 1838 until 1850, black as night and sooty as can be, take your picture in front of me.
3. Named after an ancient Roman goddess of war, and the former site of armaments manufacturing, give this hidden gem an *Old* feel.
4. In a little village formed in 1777, great *Scott*! You can find a *seat* all 4 seasons of the year, but this "tender remembrance" can be found in front of bars not behind.
5. A little place with a funny French name, don't take it for *grant*-ed, at least that is what Susanne and Abraham said. Just a brief swim from here a maiden had an adventure! (Extra points if you find where the *maiden* ran her *adventurous hotel*!)
6. 37° 36.075' N, 77° 49.687' W
7. The former location of a *fine* manor and mill, this is now the location for weddings of splendor, with falls like a bridal veil flowing to her husband James.
8. A bird from the Pipridae family or from Middle Dutch meaning "little man", this was a site where the French settled in an abandoned indigenous town, building a church here (our District namesake). Martha Washington's ancestor is honored with a plaque. We are *Giddy* and aren't *Macon* it up!
